2 Comment: Z_ROLE_PS_ADMIN_BW/001 - Role for Creating and Updating Function Modules Role in BW (PS)

2.1 Objective

The Performer Suite requires customer-specific Function Modules (see [User Manual](#)) to use all functions. The authorizations for this role are mandatory to create or update any Function Modules.

Please note that the role must also have the correct Function Modules and Function Group authorizations (depending on your prefix used).

(!) Keep in mind: An additional [Developer Key](#) for your SAP-User is mandatory (receive it from your SAP-Basis) in the following three cases:

1. Your SAP-System is BW < 7.53
2. You want to create new Function Modules
3. You want to update outdated Function Modules (e.g. after a new major version of the Performer Suite have been installed)

3 General Information

System	BI2
Role	Z_ROLE_PS_ADMIN_BW/001, Role for Creating and Updating Function Modules Role in BW (PS)
Derived from Role	-
Related Single Roles	-
Profile name	T-B2940005
